

ALEXIS MATHEWS

GRADUTE MACHINE LEARNING ENGINEER

ABOUT

I am a Post Graduate having knowledge of industry-level Machine Learning problems and Research topics. I currently work as a Machine Learning Engineer and I want to keep exploring such opportunities.

SKILLS

Machine Learning Engineering, Algorithm development, Python, Data Arbitration, Neural Networks, PyTorch, Pattern Recognition, Chatbot.

PROJECT

Bot-assisted ticket Automation project
Helps the customer very easily what his/her issue is.

Modulated Data Engineering
Transformer based Data Engineering to get deeper insights for future projects

OTHER QUALIFICATION

Introduction to data science in python Data visualization and Communication with Tableau

WORK EXPERIENCE

ERC Solution Associate
Machine Learning Engineer, Jan 2020 - Ongoing

I had an extensive range of responsibilities including selecting features, performing classification. Also working both with the end of a project carefully understanding the diametrics and overall structure.

EDUCATION

B.Sc (Computer Science Engineering) from St Josephs College of Arts And Science Bengaluru in 2018
M.Sc(Science) (Big Data Analytics) from Loyola Academy Degree & PG College, Hyderabad in 2020
