

JULIA THOMAS

FRESHER DEVELOPER

ABOUT

I am a fresher who is looking to work as a software developer in Machine Learning Application building and deployment. I am experienced in both machine learning and deep learning and have worked on few collaborative projects on such.

SKILLS

Web Development, Neural Networks, Deep Learning, Machine Learning, Python, TensorflowJS, Front End, HTML, CSS, JavaScript, Flutter

PROJECT

Object Detection
Image Segmentation
Passenger health classification based on BMI.

OTHER QUALIFICATION

TensorflowJS Workshop

WORK EXPERIENCE

ASI Technologies
Intern,
Dec 2020 - Ongoing

Working as an intern to learn the usage of Neural Networks and machine learning for web applications. Was part of a team that designed a website to generate random images based on search terms. Also worked with docker-based units for the deployment of applications.

EDUCATION

B.Tech from SGGGS College of Engineering and Technology, Kormandal in 2020
