Christian Von Kelin

JUNIOR ANALYST

Executive Profile

As a junior analyst I currently work with data preprocessing and data cleaning before sending them to Machine Learning Models. I am also simultaneously training to be a machine learning engineer to work closely with teams that build models and would like to join a venture for such opportunity.

Skills

Data Analysis, Tableau, PowerBI, R, Python, Statistical Analysis, L1 L2 Regression, Machine Learning.

Other Activities

Data Analysis - Python

Projects

Time-series Forecasting
Identifying Phished Website

Work Experience

R&M Solutions
Data Analyst Intern, Dec 2019 - Mar 2020

My role as a data analyst was to provide insights and important trends inside the company and it's clients' data to measure out the best possible way in which profitability could be maintained.

Education

B.Tech from AMN College of Engineering, Hosiyarpur in 2020
