JAIME HORAN
DATA ANALYST

ABOUT

Data Analyst, interested in Machine Learning application development. As a data analyst, I have extensive experience with data preprocessing and pipeline building and I would like to venture further into this domain to learn more about it.

SKILLS

Data Analyst, Data Analytics, Data Analysis, Time Series Analysis, Business Analytics, Predictive Modeling, Regression Analysis, Image Processing, Data Visualization, Linear Regression, Statistical Analysis, Requirement Analysis, SQL, Tableau, Python.

WORK EXPERIENCE

Sanrachna SGT University
Deputy Data Analyst Jun 2019 to Jun 2020

Creating reports, extracting, and cleaning the data. Data Analysis, EDA and modelling of the secondary data particularly data related to weather. Creating dashboards using RShiny of quantitative data and made a good animated graphical representation, worked on unstructured text data as well, built a text classifier.

EDUCATION

BSc (Information Technology) from Sikkim Manipal university in 2019
